Healthcare Provider Classes

Healthcare Provider

Designed to teach the skills of CPR for victims of all ages, including ventilation with a barrier device, bag-valve mask device, oxygen, use of an automated external defibrillator (AED), relief of foreign body airway obstruction and how to recognize the signs of cardiac arrest and choking. It is intended for participants who work in a healthcare setting and are required to take a healthcare provider course for their employment. *

Healthcare Provider Renewal

Designed to upgrade the current Healthcare Provider to the new 2010 AHA guidelines. New information is provided on an automated external defibrillator (AED) and ventilation with a barrier device, bag-valve mask device, oxygen and how to recognize the signs of cardiac arrest and choking. Student manual is not included since this is a renewal course. Must bring current CPR card, which must be not more than 1 month past the recommended renewal date. *

** Participants who successfully complete the written examination and demonstration are eligible to receive a course completion card, good for 2 years.*

Community Classes

Certification CPR Classes

Heartsaver AED (includes Adult CPR)

Designed for the layperson and first responder. Presents basic techniques of Adult CPR, how to use an automated external defibrillator (AED), use of barrier devices during rescue breathing and how to give first aid for choking. **

Heartsaver First Aid and AED (includes Adult CPR)

Designed for the layperson and first responder. The first aid section includes first aid basics, medical emergencies, injury emergencies and environmental emergencies. The CPR section presents basic techniques of Adult CPR, use of barrier devices during rescue breathing and how to use an automated external defibrillator (AED).**

Heartsaver Pediatric First Aid & CPR

Designed for child caregivers, parents, grand-parents and relatives of infants and children up to 8 years old. The first aid section includes first aid basics, medical emergencies, injury emergencies, environmental emergencies and an optional section recommended for childcare providers. The CPR section presents basic techniques of Child and Infant CPR and how to use an automated external defibrillator (AED). **

*** Participants who successfully complete the course knowledge and skills evaluations are eligible to receive a course completion card, good for 2 years.*

Non-Certification CPR Classes

CPR for Family & Friends

Designed for all lay rescuers, such as school children, family members of patients at risk for sudden cardiac death and other laypersons who want to learn rescue skills for loved ones but are not required to have course certification for their job. Basic techniques of Adult, Child and Infant CPR are demonstrated and practiced. How to use an automated external defibrillator (AED) is demonstrated.
