a Healthier Life*

Wisdom of the East and Science of the West

At the FMH Wellness Center, we use the professional skin care products by Hylunia Skin Care.

Hylunia offers the most unique and effective collection of the safest, purest skin care products free of irritants and other potentially irritating ingredients. This professional skincare line maintains and promotes healthy skin for all ages and skin types.

All of our facials are customized and tailored to your specific skin type. Our facials and facial treatments, with the exception of the mini facial, include skin analysis, deep pore cleansing, toning, exfoliating treatment, facial massage and specialized mask and moisturizer. Most facials include a relaxing hand massage.

Facials

Wellness/European Facial

Relaxing and renewing facial resulting in healthy, glowing skin. Great for normal/combo skin types.

Chocolate Herbal Facial

Tamarind has been used in Ayurveda treatments for thousands of years. This facial will include the combination of tamarind and chocolate to increase microcirculation. It will also provide excellent exfoliation while leaving the skin looking invigorated and healthy.

Deluxe Facial

Pamper yourself with this ultimate relaxing facial package! This will include a European or corrective facial, eye, hand and foot treatment. A truly wonderful experience that will leave your skin looking vibrant and your mind and body rejuvenated.

Revitalizing Mini Facial

This thirty-minute facial is great as a quick skin booster. Includes cleaning, toning, exfoliating and moisturizing. Leaves skin looking fresh and revitalized.

Corrective Facial Treatments

Calming and Soothing Facial

A gentle, soothing treatment that hydrates and calms sensitive and irritated skin. Excellent for flaky/scaly skin, psoriasis, eczema and rosacea and following laser, microdermabrasion and peel treatments. Leaves skin smooth and hydrated with a satin sheen.

Clarifying Facial

Perfect for oily and acne-prone skin. This detoxifying, soothing and calming treatment helps remove toxins from deep pores, stabilizes oil secretions and purifies congested/blemished skin while reducing inflammation. Leaves skin feeling clear and clean.

Ultimate Age-Defying Facial

This super antioxidant facial treatment uses the most potent vitamins, antioxidants, anti-inflammatories and exfoliants in providing a very effective anti-aging facial. Perfect treatment for over stressed, dehydrated and sun-damaged skin. Skin will appear renewed, soft and supple.

Advanced Facial Treatments

Resurfacing Enzyme Peel

This treatment uses natural enzymes to gently remove dead skin cells and powerful antioxidant products to help improve circulation, tone, texture and smoothness of the skin. Skin will appear smooth and radiant.

Natural Vitamin C Peel

Similar to Glycolic exfoliation but uses a natural vegetable peel with herbal extracts and L-Ascorbic Acid (Vitamin C) to combat sun-damaged, problematic, mature, dry, aging, wrinkled and stressed skin. Very effective anti-aging treatment, improving skin tone and texture.

Manual

Microdermabrasion

Eliminates dead skin cells with a totally natural exfoliant combined with ground grape seed and multi-fruit acids to cleanse and gently buff over-stressed, dehydrated, sun-damaged skin. Helps free your skin of blackheads and whiteheads to reveal baby smooth skin.

Add-On Treatments

Eye Distress Treatment

Helps reduce puffiness, fine lines and dark circles. This ultra-light, non-oily formulation also helps to firm, smooth and hydrate fragile tissues around the eyes. Shiatsu eye massage included.

Soothing Hand or Foot Treatment

Pamper your hands or feet with this soothing and relaxing treatment. Includes cleansing, exfoliation and special soothing and calming moisturizer lightly massaged into skin. Feet and/or hands are then placed into heated mitts/booties. Promotes relaxation while exfoliating, hydrating and moisturizing hands and feet, leaving them soft and smooth.

Body Treatments

Clean and Clear Back Treatment

This treatment is similar to a facial but is applied to the back. Back treatment includes double cleansing, toning and exfoliation, followed by a specialized mask and moisturizer lightly massaged into skin. Leaves the back clean, smooth and refreshed.
